

Access to predominantly secured, short-term loans in an all - weather structure

ABOUT THE FUND

The Next Edge Private Debt Fund provides investors with an attractive yielding fixed-income alternative via exposure to a diversified pool of privately negotiated collateral-backed loans to businesses throughout North America. The loans and financing facilities are predominantly senior secured, 1st lien loans that fit within one of our primary financing solutions such as Factoring (receivables-based financing), Asset-Based Lending, Lender Finance, and Specialty Finance. The Fund's primary Credit Advisor is the Garrington Group of Companies ("Garrington"). Garrington has a significant presence in the North American small and medium-sized enterprise ("SME") lending business with roots dating back to 1999 and has deployed more than \$5.7 Billion^[a] of transactions historically.

THE OPPORTUNITY

The Fund, via diversified exposure to privately negotiated and collateral-backed loans, has provided historically and aims to continue to achieve, consistent, attractive returns with a capital preservation focus while providing the potential for low volatility and low levels of correlation to most traditional asset classes. We believe the private lending market is very fragmented and offers a significant opportunity in the sub \$30MM loan size bracket, an area that tends to be under-served, regional in nature, and is dominated by competitors that offer fewer financing solutions than we can provide. As such, we continue to believe this is one of the best areas to invest in for superior risk-adjusted returns, when managed properly.
