Management discussion of fund performance

## Investment Objective and Strategies

Next Edge AHL Fund, formerly Man Canada AHL DP Investment Fund (the “Fund”) is a commodity pool structured as an open-ended investment trust established under the laws of the Province of Ontario and governed by a Declaration of Trust dated November 12, 2009. The Fund changed its name from Man Canada AHL DP Investment Fund to Next Edge AHL Fund via an amendment to its Declaration of Trust dated June 27, 2014.

Next Edge Capital Corp. (the “Manager”) is the trustee, manager, and portfolio manager of the Fund and is responsible for administration of the Fund. The Fund’s custodian, transfer agent, valuation agent and administrator is RBC Investor & Treasury Services beginning May 9, 2016 and was Citigroup Fund Services Canada Inc. prior to May 9, 2016. The registered office of the Fund and the Manager is located at 1 Toronto Street, Suite 200, Toronto, Ontario, Canada, M5C 2V6.

The Fund’s investment objective is to provide holders of units (the “unitholders”) with the opportunity to realize capital appreciation through investment returns that have a low correlation to traditional forms of stock and bond securities. The Fund is intended to provide added diversification and enhance the risk/reward profile of conventional investment portfolios.

To pursue its investment objectives, the Fund obtains exposure to the returns of a diversified portfolio of financial instruments across a range of global markets including, without limitation, stocks, bonds, currencies, short-term interest rates, energy, metals and agricultural commodities (the “Underlying Assets”) managed by AHL Partners LLP (the “Investment Manager” or “AHL”), a division of Man Group plc, using a predominantly trend-following trading program (the “AHL Diversified Programme”). The AHL Diversified Programme is implemented and managed by the Investment Manager. The Fund obtains exposure to the Underlying Assets through its investment in Man AHL DP Limited (“AHL DP Limited” or the “Underlying Fund”), an exempted company with limited liability incorporated in the Cayman Islands. The Underlying Fund holds and maintains the Underlying Assets.

The Fund may have an unlimited number of classes of units and may issue an unlimited number of units of each class. All classes of units of the Fund are redeemable at the unitholders’ option. Each class of units is intended for different types of investors. All of the classes of units have the same investment strategy and restrictions but differ with respect to one or more of their features, such as management fees, expenses, redemption fees, currency denomination, commissions or distributions. The net asset value per unit (the “Net Asset Value per Unit” or “NAV per Unit”) of each class is not the same as a result of the different fees, expenses and distributions allocable to each class of units.

## Risk

The overall level of risk associated with an investment in the Fund has not changed over the period. There can be no assurance that the Fund will achieve its investment objective in respect of the AHL Diversified Programme. For details of the risks associated with an investment in the Fund, please refer to the Prospectus and the financial statements.

#### Results of Operations

The Fund had a negative return and experienced a decrease in its net assets during the six months ended June 30, 2017:

1. Net assets attributable to holders of redeemable units ("NAV", or "Net Assets")

2. Based on financial reporting NAVs

The Fund's investment portfolio continues to consist of an investment in the Underlying Fund. For a summary of the results of the operations of the Underlying Fund for the period, see the Underlying Fund MRFP as filed on SEDAR.

#### *Investment Manager Performance Commentary of the Underlying Fund*

The Programme sustained a loss for the first half of 2017, which was broadly in line with trend-following indices such as SG Trend (-5.8%) and Barclay BTOP50 (-4.2%) when adjusted for volatility. Losses were generated in commodities, fixed income, and currencies. Trading in equities led gains while credit also produced profits.

Currently, short the US Dollar and long equities are two of the largest exposures in the fund. The Investment Manager would argue that trend-following strategies, with their ability to profit in both up and down markets, their propensity to be long 'things happening', and with their proven Crisis Alpha properties, represent an important component in investors' portfolios.

#### Recent Developments

The Fund's investment portfolio continues to consist of an investment in the Underlying Fund. There were no changes to the manager, portfolio adviser, change of control of the manager or portfolio adviser, no reorganizations, and no changes to the composition of the independent review committee during the period.

#### Related Party Transactions

The Manager is responsible for the day-to-day operations of the Fund and provides management services to the Fund, including the marketing, promotion, and distribution of the Fund; transfer agency services; and unitholder reporting and servicing. In consideration of the management services, the Fund pays management fees, which are accrued for weekly, to the Manager based on the average NAV of the applicable class of units of the Fund. Dealer compensation, or service fees, if any, are paid out of management fees and the Manager is not reimbursed for these payments.

Total management fees for the six months ended June 30, 2017 amounted to \$466,782 (2016: \$804,564) with \$45,355 in outstanding accrued fees due to the Manager at June 30, 2016 (December 31, 2016: \$59,142).

The Manager incurs operating expenses on behalf of the Fund and is then reimbursed by the Fund for such expenses.

#### Management discussion of fund performance (continued)

The Manager also provided start-up investment capital to the Fund and sufficient initial capital to each additional class of the Fund to permit that series to be valued effectively on a weekly basis. The Manager's investment in the Fund is recorded at the NAV per unit of each class, as applicable.

National Instrument 81-107 Independent Review Committee for Investment Funds ("NI 81-107") requires all publicly offered investment funds, such as the Fund, to establish an independent review committee ("IRC"). Consequently, the Manager has appointed three independent IRC members. The purpose of the IRC is to: (i) review and provide input on the Manager's written policies and procedures that deal with conflict of interest matters; (ii) consider and, if deemed appropriate, approve the Manager's decision on a conflict of interest matter that the Manager refers to the IRC for approval; and (iii) perform such other duties as may be required of the IRC under applicable Canadian securities laws. Additional information about the IRC is available in the Fund's prospectus. Fees are paid to the IRC members for the performance of their duties.

The total remuneration paid to members of the Independent Review Committee during the six months ended June 30, 2017 was \$23,578 (2016: \$23,832). There were no outstanding payables relating to Independent Review Committee fees as at June 30, 2017 and December 31, 2016.

The Fund also earns its returns based on the performance of the Underlying Assets which are managed by the Investment Manager. Effective June 10, 2014, the Investment Manager, wholly owned by Man Group plc, was no longer a Related Party.

#### Financial highlights (continued)

2. This information is derived from the Company's audited annual financial statements. The Fund adopted IFRS on January 1, 2014. Previously, the Fund prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (GAAP) as defined in Part V of the CPA Canada Handbook. Under Canadian GAAP, the Fund measured fair values of its investments in accordance with CICA Handbook Section 3855 which required the use of close prices for the Common Share Portfolio and Forward Agreement. As such, the net assets per unit figure presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements issued prior to January 1, 2014. Upon adoption of IFRS, the Fund measures the fair value of its investments by using the close market prices, where the close market price falls within the bid-ask spread. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are consistent with those used in measuring the net asset value for transactions with unitholders. Accordingly, the opening net asset figure as at January 1, 2013 was restated to reflect accounting policy adjustments made in accordance with IFRS. All figures presented for periods prior to January 1, 2013 were prepared in accordance with Canadian GAAP.

Prior to December 9, 2013, the Fund obtained exposure to the Underlying Assets through one or more forward purchase and sale agreements (collectively, the "Forward Agreement") entered into with one or more Canadian chartered banks and/or their affiliates (the "Counterparty"). The Counterparty in turn held AHL Investment Strategies SPC Class D Man AHL Diversified 2 CAD Notes ("AHL SPC Notes"), which held the Underlying Assets at the time. The Fund invested in a specified portfolio of common shares of Canadian public companies (the "Common Share Portfolio") that were listed on the Toronto Stock Exchange, pursuant to which the Counterparty agreed to pay to the Fund upon a partial settlement the purchase price of the relevant portion of an investment in the applicable Common Share Portfolio, an amount equal to 100% of the redemption proceeds of a corresponding number of participating AHL SPC Notes.

3. This information is derived from the Fund's audited financial statements for the year ended December 31, 2012. Information related to the year ended December 31, 2012 had been prepared in compliance with Canadian Generally Accepted Accounting Principles as defined in Part V of the Chartered Professional Accountants of Canada Handbook – Accounting at the time.
4. Net Assets are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is calculated based on the average number of units outstanding over the period. Therefore, the beginning of period Net Assets, the increase (decrease) from operations and distributions, if any, will not sum to the end of period Net Assets.
5. Class J and K units were initially issued on December 16, 2014.
6. Class H units were initially issued on February 14, 2013.
7. Class L and M units were initially issued on December 30, 2013.

1. This information is provided as at and for the periods ended June 30, 2017, December 31, 2016, 2015, 2014, 2013, and 2012.
2. This information is derived from the Fund's unaudited semi-annual financial statements for the six months ended June 30, 2017 and the Fund's audited financial statements for the year ended December 31, 2016. Information related to the period ended June 30, 2017, December 31, 2016, 2015 and 2014 have been prepared in compliance with International Financial Reporting Standards as published by the International Accounting Standards Board.
3. This information is derived from the Company's audited annual financial statements. The Fund adopted IFRS on January 1, 2014. Previously, the Fund prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (GAAP) as defined in Part V of the CPA Canada Handbook. Under Canadian GAAP, the Fund measured fair values of its investments in accordance with CICA Handbook Section 3855 which required the use of close prices for the Common Share Portfolio and Forward Agreement. As such, the net assets per unit figure presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements issued prior to January 1, 2014. Upon adoption of IFRS, the Fund measures the fair value of its investments by using the close market prices, where the close market price falls within the bid-ask spread. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are consistent with those used in measuring the net asset value for transactions with unitholders. Accordingly, the opening net asset figure as at January 1, 2013 was restated to reflect accounting policy adjustments made in accordance with IFRS. All figures presented for periods prior to January 1, 2013 were prepared in accordance with Canadian GAAP.
4. Information related to the period ended December 31, 2012 had been prepared in compliance with Canadian Generally Accepted Accounting Principles as defined in Part V of the Chartered Professional Accountants of Canada Handbook – Accounting at the time.
5. Management expense ratio is based on total expenses of the Fund and the Fund's allocated percentage of Man AHL DP Limited's (applicable effective December 9, 2013) and AHL Investment Strategies SPC – Class D Man AHL Diversified 2 CAD Notes' (applicable prior to December 9, 2013) expenses for the stated period as applicable (excluding commission and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net asset value during the period. The management expense ratio is calculated in accordance with Part 15 of NI 81-106.
6. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
7. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.
