How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility."

In general, funds with higher volatility will have returns that change moreover time. They typically have a greater chance of losing money and mayhave a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

Next Edge Capital Corp. has rated the volatility of this Fund as **medium.** This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low-risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the "What are the Risks of Investing in a Mutual Fund" section of the Fund's simplified prospectus.

No guarantees

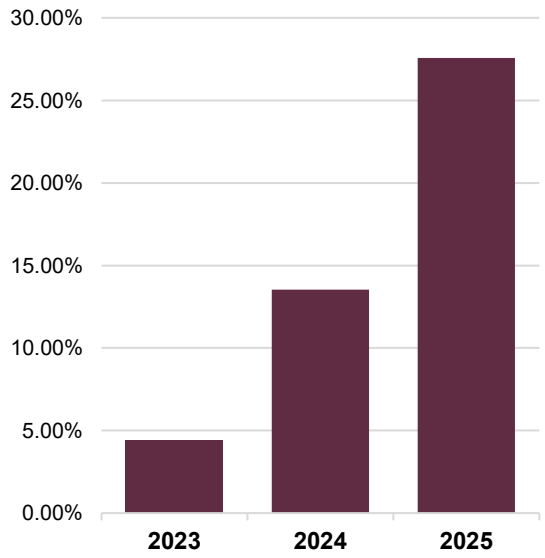
Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the Fund performed?

This section tells you how the Class A Units of the Fund have performed over the past three calendar years. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

Year-by-year returns

This chart shows how Class A Units of the Fund performed for the past three calendar years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.



Best and worst 3-month returns

This table shows the best and worst returns for Class A Units of the Fund in a 3-month period over the past three calendar years. The best and worst
3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested $1,000 at the beginning of the period
Best Return	11.30%	September 30, 2025	Your investment would rise to $1,113.

Average return

The annual compounded return of Class A Units of the Fund was 14.97% since inception. If you had invested $1,000 in this class of the Fund since

Who is this fund for?

Investors who:

- are investing for the medium and/or long term
- can tolerate medium risk
- want to make research driven investments

A word about tax

In general, you'll have to pay income tax on any money you make from your investment in the Fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own, and sell Class A Units of the Fund. The fees and expenses – including any commissions – can vary among classes of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The Class A Units are available through an initial sales charge option.

Sales charge option	What you pay		How it works
	in percent (%)	in dollars ($)	
Initial sales charge	0 to 3.00% of the amount you buy	0 to $30.00 of every $1,000 you pay	• You and your representative decide on the rate. • The initial sales charge is deducted from the amount you buy, and it goes to your representative's firm as a commission.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of this class of the Fund.

The Fund's expenses are made up of the management fee, operating expenses, and trading costs. The annual management fee for Class A Units of the Fund is 1.80% of the Fund's value. As of December 31, 2025, the Fund's expenses were 3.22%. This equals $32 for every $1,000 invested.

	Annual rate (as at a % of the Fund's value)
Management expense ratio (MER) This is the total of the Fund's management fee (including the trailing commission) and operating expenses.	3.05%
Trading expense ratio (TER) These are the Fund's trading costs.	0.17%
Fund Expenses	3.22%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your representative and their firm provide to you.

Next Edge Capital Corp. pays the trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the value of your investment. Specifically, the trailing commission equals 1.00% of the value (or $10.00 for every $1,000 invested) of all Class A Units held by clients of such representatives which have not been redeemed by the payment date.

3. Other Fees

You may have to pay other fees when you buy, hold, sell, or switch units of the Fund.

Fee	What you pay
Short-term trading fee	At the discretion of Next Edge Capital Corp., up to 2.00% of the value of units you sell or switch within 90 days of buying them. This fee goes to the Fund.
Switch/Redesignation fee	Up to 3.00% of the value of the units you switch or redesignate.
