#### Investment Objective and Strategies

Next Edge AHL Fund (the "Fund") is a commodity pool structured as an open-ended investment trust established under the laws of the Province of Ontario and governed by a Declaration of Trust dated November 12, 2009.

The Fund's investment activities are managed by Next Edge Capital Corp., (the "Manager"). The Fund's transfer agent, valuation agent and administrator is RBC Investor & Treasury Services. The registered office of the Fund is located at 1 Toronto Street, Suite 200, Toronto, Ontario, Canada.

The Fund's investment objective is to provide holders of units (the "unitholders") with the opportunity to realize capital appreciation through investment returns that have a low correlation to traditional forms of stock and bond securities. The Fund is intended to provide added diversification and enhance the risk/reward profile of conventional investment portfolios.

To pursue its investment objectives, the Fund obtains exposure to the returns of a diversified portfolio of financial instruments across a range of global markets including, without limitation, stocks, bonds, currencies, short-term interest rates, energy, metals and agricultural commodities (the "Underlying Assets") managed by AHL Partners LLP (the "Investment Manager" or "AHL"), a division of Man Group plc, using a predominantly trend-following trading program (the "AHL Diversified Programme"). The AHL Diversified Programme is implemented and managed by the Investment Manager. The Fund obtains exposure to the Underlying Assets through its investment in Man AHL DP Limited ("AHL DP Limited" or the "Underlying Fund"), an exempted company with limited liability incorporated in the Cayman Islands. The Underlying Fund holds and maintains the Underlying Assets.

The Fund may have an unlimited number of classes of units and may issue an unlimited number of units of each class. All classes of units of the Fund are redeemable at the unitholders' option. Each class of units is intended for different types of investors. All of the classes of units have the same investment strategy and restrictions but differ with respect to one or more of their features, such as management fees, expenses, redemption fees, currency denomination, commissions or distributions. The net asset value per unit (the "Net Asset Value per Unit" or "NAV per Unit") of each class is not the same as a result of the different fees, expenses and distributions allocable to each class of units.

#### Risk

The overall level of risk associated with an investment in the Fund has not changed over the six months. There can be no assurance that the Fund will achieve its investment objective in respect of the AHL Diversified Programme. The Fund's investment portfolio continues to consist of an investment in the Underlying Fund, Man AHL DP Limited. For a summary of the results of the operations of the Underlying Fund for the period, see the Man AHL DP Limited MRFP as filed on SEDAR.

Investment Manager Performance Commentary of the Underlying Fund

The Programme sustained a loss for the first half of 2018, which was broadly in line with trend-following indices when adjusted for volatility.

The strongest performing sector on the half-year was fixed income where shorts in both the Euro-Dollar contract and the US 10yr Treasury generated the largest gains. Rate hikes by the US Federal Reserve as well as indications of a further two hikes in 2018 helped to drive bond prices lower. Currencies were the second best performing sector as the Programme shifted into long US Dollar positions in Q2. The top contributing market for currencies was long US Dollar versus the Brazilian Real. A long in US Dollar against the Euro produced the next largest gains.

On the negative side of the ledger, Stocks generated the largest losses as a result of the strong reversal in February as well as on concerns of a global trade war heating up. VIX Volatility Index shorts detracted from performance the most in the sector—particularly in February. Longs in the Euro-STOXX index detracted second most in the sector. Commodities were the 2nd worst performing sector in H1. Leading losses were longs in Copper followed by shorts in Natural Gas. Lastly, Credit detracted with US and European 5yr investment grade indices producing the largest losses. Positioning was short protection in both markets for the bulk of the quarter.

#### Recent Developments

The Fund's investment portfolio continues to consist of an investment in the Underlying Fund. There were no changes to the manager, portfolio adviser, change of control of the manager or portfolio adviser, no reorganizations, and no changes to the composition of the independent review committee during the period.

#### **Related Party Transactions**

The Manager is responsible for the day-to-day operations of the Fund and provides management services to the Fund, including the marketing, promotion, and distribution of the Fund; transfer agency services; and unitholder reporting and servicing. In consideration of the management services, the Fund pays management fees, which are accrued for weekly, to the Manager based on the average NAV of the applicable class of units of the Fund. Dealer compensation, or service fees, if any, are paid out of management fees and the Manager is not reimbursed for these payments.

Total management fees for the six months ended June 30, 2018 amounted to \$330,865 (2017: \$466,782) with \$3,683 in outstanding accrued fees due to the Manager at June 30, 2018 (December 31, 2017: \$2,193).

The Manager incurs operating expenses on behalf of the Fund and is then reimbursed by the Fund for such expenses.

The Manager also provided start-up investment capital to the Fund and sufficient initial capital to each additional class of the Fund to permit that series to be valued effectively on a weekly basis. The Manager's investment in the Fund is recorded at the NAV per unit of each class, as applicable.

National Instrument 81-107 Independent Review Committee for Investment Funds ("NI 81-107") requires all publicly offered investment funds, such as the Fund, to establish an independent review committee ("IRC"). Consequently, the Manager has appointed three independent IRC members. The purpose of the IRC is to: (i) review and provide input on the Manager's written policies and procedures that deal with conflict of interest matters; (ii) consider and, if deemed appropriate, approve the Manager's decision on a conflict of interest matter that the Manager refers to the IRC for approval; and (iii) perform such other duties as may be required of the IRC under applicable Canadian securities laws. Additional information about the IRC is available in the Fund's prospectus. Fees are paid to the IRC members for the performance of their duties.

The total remuneration paid to members of the Independent Review Committee during the six months ended June 30, 2018 was \$17,932 (2017: \$23,578). There were no outstanding payables relating to Independent Review Committee fees as at June 30, 2018 and December 31, 2017.

<sup>1.</sup> This information is derived from the Fund's semi-annual financial statements for the six months ended June 30, 2018 and annual financial statements for the years ended December 31, 2017, 2016, 2015, 2014 and 2013. Information related to the years ended December 31, 2017, 2016, 2015 and 2014 have been prepared in compliance with International Financial Reporting Standards as published by the International Accounting Standards Board.

<sup>2.</sup> This information is derived from the Underlying Fund's audited annual financial statements. The Fund adopted IFRS on January 1, 2014. Previously, the Fund prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (GAAP) as defined in Part V of the CPA Canada Handbook. Under Canadian GAAP, the Fund measured fair values of its investments in accordance with CICA Handbook Section 3855 which

## Semi-annual management report of fund performance – June 30, 2018 Financial highlights (continued)

required the use of close prices for the Common Share Portfolio and Forward Agreement. As such, the net assets per unit figure presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements issued prior to January 1, 2014. Upon adoption of IFRS, the Fund measures the fair value of its investments by using the close market prices, where the close market price falls within the bid-ask spread. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are consistent with those used in measuring the net asset value for transactions with unitholders. Accordingly, the opening net asset figure as at January 1, 2013 was restated to reflect accounting policy adjustments made in accordance with IFRS. All figures presented for periods prior to January 1, 2013 were prepared in accordance with Canadian GAAP.

Prior to December 9, 2013, the Fund obtained exposure to the Underlying Assets through one or more forward purchase and sale agreements (collectively, the "Forward Agreement") entered into with one or more Canadian chartered banks and/or their affiliates (the "Counterparty"). The Counterparty in turn held AHL Investment Strategies SPC Class D Man AHL Diversified 2 CAD Notes ("AHL SPC Notes"), which held the Underlying Assets at the time. The Fund invested in a specified portfolio of common shares of Canadian public companies (the "Common Share Portfolio") that were listed on the Toronto Stock Exchange, pursuant to which the Counterparty agreed to pay to the Fund upon a partial settlement the purchase price of the relevant portion of an investment in the applicable Common Share Portfolio, an amount equal to 100% of the redemption proceeds of a corresponding number of participating AHL SPC Notes.

- 3. Net Assets are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is calculated based on the average number of units outstanding over the period. Therefore, the beginning of period Net Assets, the increase (decrease) from operations and distributions, if any, will not sum to the end of period Net Assets.
- 4. Class J and K units were initially issued on December 16, 2014.
- 5. Class H was initially issued on February 14, 2013. Class L and M units were initially issued on December 30, 2013.

- 1. This information is derived from the Fund's unaudited financial statements for the six months ended June 30, 2018 and audited financial statements for the year ended December 31, 2017, 2016, 2015, 2014 and 2013. Information related to the period ended December 31, 2017, 2016, 2015 and 2014 have been prepared in compliance with International Financial Reporting Standards as published by the International Accounting Standards Board.
- 2. This information is derived from the Underlying Fund's audited annual financial statements. The Fund adopted IFRS on January 1, 2014. Previously, the Fund prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (GAAP) as defined in Part V of the CPA Canada Handbook. Under Canadian GAAP, the Fund measured fair values of its investments in accordance with CICA Handbook Section 3855 which required the use of close prices for the Common Share Portfolio and Forward Agreement. As such, the net assets per unit figure presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements issued prior to January 1, 2014. Upon adoption of IFRS, the Fund measures the fair value of its investments by using the close market prices, where the close market price falls within the bid-ask spread. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are consistent with those used in measuring the net asset value for transactions with unitholders. Accordingly, the opening net asset figure as at January 1, 2013 was restated to reflect accounting policy adjustments made in accordance with IFRS. All figures presented for periods prior to January 1, 2013 were prepared in accordance with Canadian GAAP.
- 3. Management expense ratio is based on total expenses of the Fund and the Fund's allocated percentage of Man AHL DP Limited's (applicable effective December 9, 2013) and AHL Investment Strategies SPC Class D Man AHL Diversified 2 CAD Notes' (applicable prior to December 9, 2013) expenses for the stated period as applicable (excluding commission and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net asset value during the period. The management expense ratio is calculated in accordance with Part 15 of NI 81-
- 4. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period
- 5. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.
- 6. Class H was initially issued on February 14, 2013. Class L and M units were initially issued on December 30, 2013.
- 7. Class J and K units were initially issued on December 16, 2014.
