

Next Edge Bio-Tech Plus Fund

Annual Management Report of Fund Performance – 2018

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Next Edge Bio-Tech Plus Fund (the “Fund”). You may obtain a copy of the annual financial statements at your request, and at no cost, by calling (416) 775-3600 or toll-free at (877) 860-1080, by writing to us at Next Edge Capital Corp., 1 Toronto Street, Suite 200, Toronto, Ontario, M5C 2V6, Canada or by visiting our website at www.nextedgecapital.com or SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the investment fund’s proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Caution Regarding Forward-looking Statements

Certain portions of this report, including but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about Next Edge Bio-Tech Plus Fund (the “Fund”), including its strategies, risks, expected performance and condition. All statements, other than statements of historical fact, that address activities, events or developments that Next Edge Capital Corp. (the “Manager”) believe, expect or anticipate will or may occur in the future (including, without limitation, statements regarding any targeted returns, projections, forecasts, statements and future plans and objectives of the Fund) are forward-looking statements. These forward-looking statements reflect the current expectations, assumptions or beliefs of the Manager based on information currently available to the Fund.

Forward-looking statements are subject to a number of risks and uncertainties that may cause the actual results of the Fund to differ materially from those discussed in the forward-looking statements, and even if such actual results are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on the Fund.

Factors that could cause actual results or events to differ materially from current expectations include, among other things, changes in international financial and commodities markets, fluctuations in currency exchange and interest rates, illiquidity of portfolio investments, reduction in availability of leverage, default by counterparties, special risks arising from short sales and investments in forward contracts and other derivatives, unintentional trades, accuracy of analytical models, valuation risks, limitations on redemptions, tax consequences, changes in applicable laws and other risks associated with investing in securities and those factors discussed under the section entitled “Risk Factors” in the Fund’s simplified prospectus.

Any forward-looking statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Manager and the Fund disclaim any intent or obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise. Although the Manager believes that the assumptions inherent in the forward-looking statements are reasonable, forward-looking statements are not guarantees of future performance and accordingly undue reliance should not be put on such statements due to the inherent uncertainty therein.

Next Edge Bio-Tech Plus Fund

Annual management report of fund performance – December 31, 2018

Management discussion of fund performance

Investment Objective and Strategies

Next Edge Bio-Tech Plus Fund (the “Fund”) is a mutual fund established as a trust under the laws of the Province of Ontario by a declaration of trust dated December 1, 2014 made by Next Edge Capital Corp., as trustee. The Fund is divided into units of participation (“Units”) representing an interest in the Fund held by unitholders. The Fund has four classes of Units: Class A Units, Class A1 Units, Class F Units and Class F1 Units.

The Fund started investing according to its investment objective on February 17, 2015.

Investment Objective

This Fund seeks short and long-term capital appreciation through the ownership of small and mid-capitalization biotechnology and healthcare companies based in Canada and the United States.

The Manager will not change the investment objectives of the Fund without the approval of a majority of Unitholders.

Investment Strategies

The portfolio manager uses the following investment strategies to attempt to achieve the Fund’s investment objective:

- Holdings comprised of a mix of Canadian and US biomedical companies.
- Sector exposure includes biotechnology, speciality pharma, medical devices, diagnostics, drug delivery, bioinformatics and agricultural and healthcare services.
- Derivatives are used for hedging purposes and return enhancement.

Investment decisions are made by:

- Focusing on companies in later stages of clinical development or early commercialization that meet specific criteria and whose data has been subjected to peer reviewed analysis.
- Managing the Fund in accordance with a risk-managed barbell methodology. This approach attempts to reduce overall portfolio volatility by: further reducing the risk associated with investments in a particular sector by placing option hedges on biotechnology indices; and exiting or hedging a particular position, should the applicable issuer be faced with event risks owing to expected upcoming factors/data/information.
- Collectively hedging to reduce the volatility of a traditionally volatile sector.

The Fund may invest in securities denominated in currencies other than Canadian dollars from time to time. The amount of such investments will vary but may exceed 50% of the net assets of the Fund at the time that such securities are purchased.

The Fund may invest in or use derivatives for hedging and non-hedging purposes in a manner consistent with the investment objective of the Fund and as permitted by applicable securities legislation. Derivatives to be used by the Fund may include, but are not limited to, non-exchange traded options, forward contracts, futures contracts and swaps.

The Fund may depart temporarily from its fundamental investment objectives and will likely invest in cash or cash equivalents in the event of adverse market, economic, political or other considerations.

The Fund is managed by Next Edge Capital Corp. (the “Manager”). The custodian, registrar, transfer agent and valuation agent of the Fund is RBC Investor & Treasury Services. The registered office of the Fund is located at 1 Toronto Street, Suite 200, Toronto, Ontario, Canada, M5C 2V6.

Next Edge Bio-Tech Plus Fund

Annual management report of fund performance – December 31, 2018

Management discussion of fund performance (continued)

Risk

The Fund started investing according to its investment objective on February 17, 2015. Effective February 17, 2015, an investment in the Fund is subject to certain risk factors relating to the Fund, as detailed in its Simplified Prospectus. During the year ended December 31, 2018, there were no changes to the Fund that materially affected the overall risk level associated with an investment in the Fund.

Results of Operations

The Fund experienced a decrease in its net assets during the years ended December 31, 2018:

Class of redeemable units	December 31, 2018 NAV per unit (CAD) ¹	December 31, 2017 NAV per unit (CAD) ¹	% return for year ended December 31, 2018 ¹
A ²	8.04	10.21	(21.3)
A1 ³	8.68	10.88	(20.2)
F ³	8.60	10.80	(20.4)
F1 ³	8.99	11.14	(19.3)

1. Net assets attributable to holders of redeemable units ("NAV", or "Net Assets").

Next Edge Bio-Tech Plus Fund commenced trading according to its investment objective on February 17, 2015 to provide investors with exposure to small-mid cap biotech stocks. The benchmark is a blend of 60% NASDAQ Biotechnology Index and 40% S&P/TSX Capped Healthcare Index. Both indices are heavily weighted in large capitalization companies which are not representative of the Fund's holdings in small-mid cap emerging healthcare companies.

As it was for many other sectors, the Fund was impacted by the severe market selloff in the fourth quarter, culminating with the worst December since 1931. The selling was hardest on so-called 'risk-on' assets such as economically sensitive sectors, Technology, and capital-intensive assets such as Biotechnology which need access to capital markets to finance clinical trials.

Unlike the sharp market decline in the first quarter, the fourth quarter selloff was indiscriminate, not distinguishing between the Fund's high-quality, self-funded commercial companies from the capital-starved small cap companies. The Fund held substantial protective Put Option hedges which served their purpose in protecting the portfolio. Unfortunately, its benefit was muted by the impact of the magnitude of the decline in several of the Fund's largest weighted holdings.

For 2018, the Fund underperformed by declining 21.25% for the Class A units and -20.37% for the Class F units, vs -10.20% for the Benchmark. It should be noted that the Benchmark is 40% weighted in the TSX Healthcare Index, which was comprised of +60% weight in recreational Marijuana companies, which soared in anticipation of legalization. This significantly skewed and misrepresented the actual Canadian healthcare sector performance the Fund is invested in. While the Fund is focused on investing in companies developing either life-saving or quality-of-life improving therapeutics, the recreational marijuana companies are better suited to a consumer products index that includes liquor and tobacco.

At the end of December, many of our proprietary indicators registered multiyear oversold readings, suggesting the high probability that a rebound was likely, no matter how dire the market seemed at the time. One such reading registered a measure seen only 3 other times in the past 20 years. As such, we closed out profitable hedges, and the proceeds recycled into the Fund's highest quality late-phase / early commercial companies.

In the second half of the year, the fund also increased select Canadian positions perceived to be mispriced by the market. While it was a drag on performance, we take a longer term view on their true potential economic value.

Next Edge Bio-Tech Plus Fund

Annual management report of fund performance – December 31, 2018

Management discussion of fund performance (continued)

Recent Developments

Through January and February 2019, the Fund has advanced 31.79% in Class A units and recovered all of 2018's bear market decline, and doubled the performance of the Nasdaq Biotech Index of 16.42%. Closing out the hedges and positioning based on our indicators has benefited our investors. Returns have been helped by two of the Fund's holdings being acquired at a +122% and +75% premium. This is the 8th and 9th takeover of a holding since the Fund's inception 4 years ago.

Effective January 1, 2018, the Fund adopted IFRS 9, Financial Instruments. There was no impact on the net assets and the results of the Fund from the adoption of IFRS 9. The adoption of IFRS 9 has also been applied retrospectively and did not result in any changes in the prior period.

Related Party Transactions

The Manager is responsible for the day-to-day operations of the Fund and provides management services to the Fund, including the marketing, promotion, and distribution of the Fund; transfer agency services; and unitholder reporting and servicing. In consideration of the management services, the Fund pays management fees, which are accrued for daily, to the Manager based on the average NAV of the applicable class of units of the Fund. Dealer compensation, or service fees, if any, are paid out of management fees and the Manager is not reimbursed for these payments.

Total management fees for the year ended December 31, 2018 amounted to \$257,629 (2017: \$143,421) with \$13,073 in outstanding accrued fees due to the Manager at December 31, 2018 (December 31, 2017: \$8,841).

The Fund pays the Manager a quarterly performance fee if the percentage gain in the NAV per unit of a class exceeds the percentage gain or loss of the benchmark, provided that the NAV per unit is greater than all previous values in which a performance fee was paid. Total performance fees for the year ended December 31, 2018 amounted to nil (2017: \$759,424), with nil absorbed by the Manager (December 31, 2017: \$521,285), with nil in outstanding accrued fees due to the Manager at December 31, 2018 (December 31, 2017: nil).

The Manager incurs operating expenses on behalf of the Fund and is then reimbursed by the Fund for such expenses.

National Instrument 81-107 Independent Review Committee for Investment Funds ("NI 81-107") requires all publicly offered investment funds, such as the Fund, to establish an independent review committee ("IRC"). Consequently, the Manager has appointed three independent IRC members. The purpose of the IRC is to: (i) review and provide input on the Manager's written policies and procedures that deal with conflict of interest matters; (ii) consider and, if deemed appropriate, approve the Manager's decision on a conflict of interest matter that the Manager refers to the IRC for approval; and (iii) perform such other duties as may be required of the IRC under applicable Canadian securities laws. Additional information about the IRC is available in the Fund's prospectus. Fees are paid to the IRC members for the performance of their duties.

The total remuneration paid to members of the Independent Review Committee allocable to the Fund during the year ended December 31, 2018 was \$17,220 (2017: \$6,345). There were no outstanding payables relating to Independent Review Committee fees as at December 31, 2018 and 2017.

Next Edge Bio-Tech Plus Fund

Annual management report of fund performance – December 31, 2018

Financial highlights (continued)

1. This information is derived from the Fund's audited financial statements for the years ended December 31, 2018, 2017, 2016, and 2015.
2. Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is calculated based on the average number of units outstanding over the period. Therefore, the beginning of period Net Assets, the increase (decrease) from operations and distributions, if any, will not sum to the end of period Net Assets.
3. Class A units were first issued on inception date of the Fund on December 1, 2014, but the Fund did not start investing according to its mandate until February 17, 2015.
4. The first issuance of Class A1 and Class F1 units was on January 21, 2015. The first issuance of Class F units was on January 23, 2015.

Next Edge Bio-Tech Plus Fund

Annual management report of fund performance – December 31, 2018

Financial highlights (continued)

1. This information is provided as at December 31, 2018, 2017, 2016 and 2015.
2. Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The management expense ratio is calculated in accordance with Part 15 of NI 81-106.
3. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
4. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.
5. Class A units were first issued on inception date of the Fund on December 1, 2014, but the Fund did not start investing according to its mandate until February 17, 2015.
6. The first issuance of Class A1 and Class F1 units was on January 21, 2015. The first issuance of Class F units was on January 23, 2015.

Next Edge Bio-Tech Plus Fund

Annual management report of fund performance – December 31, 2018

Financial highlights (continued)

Management Fees

For the year ended December 31, 2018 for its services to the Fund, the Manager was entitled to receive from the Fund, a management fee (the "Management Fee") at (up to) an annual rate of: (i) 2.25% of the portion of its Net Asset Value represented by the Class A units; (ii) 1.00% of the portion of its Net Asset Value represented by the Class A1 units; (iii) 1.25% of the portion of its Net Asset Value represented by the Class F units and (iv) 0.00% of the portion of its Net Asset Value represented by the Class F1 units, calculated daily and paid monthly in arrears, plus applicable taxes. The Manager uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund's units, investment advice, as well as for general administrative expenses such as overhead, salaries, rent, legal and accounting fees relating to the role of the Manager. The Fund started accruing for management fees on February 17, 2015.

Annual management fees, and a breakdown of the services received in consideration of the management fees, as a percentage of management fees, for the year ended December 31, 2018, are as follows:

Class of units	Annual Rates	As a percentage of management fees	
		Dealer Compensation	General administration, investment advice and profit
A	2.25%	44.44%	55.56%
A1	1.00%	100.00%	0.00%
F	1.25%	0.00%	100.00%
F1	0.00%	N/A	N/A

Next Edge Bio-Tech Plus Fund

Annual management report of fund performance – December 31, 2018

Past performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information shown does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

The Fund launched December 1, 2014 but did not trade according to its investment objectives until February 17, 2015. For the period ended December 31, 2014, for all classes, there was no net income or expense and no performance gain or loss.

Reported returns are as follows from the first day to the last day of each fiscal period shown.

Year-by-Year Returns^{1,2}

Class A

Class A1

Class F

Class F1

1. Returns are for partial year from the inception date to December 31, 2014
2. Returns are for partial year from the inception date to December 31, 2015
